## Deer Culling Program Check List

This check list has been developed to assist you in completing the required deer culling application. Please confirm all items in order to successfully obtain a deer culling permit.

To qualify for a culling permit, the culling property must be at least 5 acres. Property owner(s) may group properties that have contiguous borders to achieve the 5 acre minimum. Properties that are adjacent to schools, commercial property or Village owned property are not eligible.

1. Property owner/applicant(s) must provide a name, address, phone number, and signature on form 300 to include the total acreage of the culling property.
2. Property owner/applicant(s) must provide a signature on form 100 to include one or more property owners.
3. Form 400 should be completed by the intended deer culler(s). If more than one person is designated to cull on the property the form may be duplicated and completed by the additional cullers. **Each culler must provide a photo copy of their driver's license or state identification card and their Ohio hunting permit and Ohio deer permit(s).**
4. It is the property owners/applicants responsibility to complete and mail form 200 (two pages) to any and all property owners on a contiguous border to the culling property. The Chief of Police shall make notification to the applicant and or culler if an adjacent property owner objects to any culling activity on property outside of the permit holder.
5. Return the completed documents, with \$25.00 permit fee, to the Gates Mills Police Department. **No culling may take place until approval has been made in writing and is approved by the Chief of Police or his designee.**
